PROFESSIONAL SUMMARY

Results-driven and highly ambitious Computer Science student specializing in Data Science, Machine Learning, and Predictive Analytics. Skilled in transforming raw datasets into actionable insights using Python, statistical analysis, and modern visualization techniques. Passionate about building intelligent, data-driven solutions with strong analytical thinking, problem-solving abilities, and a continuous learning mindset.

TECHNICAL SKILLS

Programming	Python, SQL, Machine Learning, Data Analysis
Libraries	Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Data Science	Predictive Analytics, Data Cleaning, Model Training
Tools	Jupyter Notebook, GitHub, CSV Dataset Handling
Soft Skills	Analytical Thinking, Problem Solving, Communication

PROJECTS

Student Result Analysis Using Graphical Visualization

Designed and developed a data analytics system to evaluate and visualize academic performance trends using statistical graphs and interactive visualizations for better educational insights.

Car Price Prediction Using Machine Learning

Built a regression-based Machine Learning model capable of predicting vehicle prices using historical automobile datasets, feature engineering, and predictive analytics.

Iris Flower Classification System

Developed an intelligent classification model to accurately identify Iris flower species using supervised Machine Learning algorithms and pattern recognition techniques.

Sales Prediction Using Predictive Analytics

Created a predictive sales forecasting model using historical business data to assist in strategic decision-making and trend analysis.

EDUCATION

Bachelor of Science in Computer Science (TYBSc CS)
Currently Pursuing

CERTIFICATIONS

Introduction to Data Science — Simplilearn SkillUp

Issued: May 2026 | Certificate Code: 10199839

CAREER OBJECTIVE

Seeking a challenging opportunity in the field of Data Science and Artificial Intelligence to leverage analytical expertise, Machine Learning knowledge, and programming skills for solving real-world business problems and contributing to innovative technological solutions.
